Shaping Competence, Driving Innovation

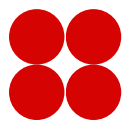

D'Competent is a dynamic and multifaceted company dedicated to excellence in laboratory services, consultancy, competency certification, and training. Our expertise spans across critical sectors, ensuring high-quality solutions tailored to meet industry standards and client needs.

Established on September 12, 2022, **D'Competent** is built on a strong foundation of expertise and industry knowledge. While the company itself is newly founded, our team of experts brings over 10 years of experience in laboratory services, consultancy, competency certification, and training. This extensive background enables us to deliver high-quality solutions, ensuring excellence and innovation in every aspect of our services.

With a strong foundation in laboratory services, we provide precise and reliable testing, analysis, and research to support various industries. Our consultancy division offers expert guidance on regulatory compliance, process optimization, and strategic development to enhance operational efficiency. Through our competency certification programs as part of Professional Certification Body (LSP) license National Professional Certification Agency (BNSP), we help professionals gain recognized qualifications, ensuring they meet industry requirements. Our training center is committed to capacity building, equipping individuals and organizations with essential skills and knowledge through specialized courses and hands-on learning experiences.

At **D'Competent**, we are driven by a commitment to quality, integrity, and continuous improvement. Our mission is to empower industries and individuals by providing top-tier services and solutions that foster growth, compliance, and sustainability.

About Us

Company Name

D'COMPETENT (Subsidiary of PT Dewi Energi Abadi)

Established

September 12, 2022

Address

Jl. Salemba Raya No. 4, Kenari, Senen, Central Jakarta
City, 10430, Indonesia

Phone

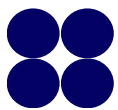

+62-896-3568-7285

Tax ID (NPWP)

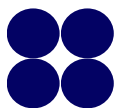

60.995.791.5-023.000

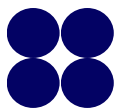

Vision

To be a leading provider of integrated laboratory, consultancy, certification, training, driving excellence, innovation, and sustainability across industries.

Mission

D'Competent is committed to delivering high-quality laboratory services, expert consultancy, recognized competency certification, and professional training. We strive to empower industries and individuals through excellence, integrity, and continuous development, ensuring compliance, efficiency, and sustainable growth.

Purpose

At D'Competent, our purpose is to enhance industry standards and workforce competency by providing reliable laboratory services, expert consultancy, accredited certification. We are dedicated to fostering excellence, compliance, and sustainable growth, ensuring that businesses and professionals are equipped with the skills, knowledge, and resources necessary to thrive in a competitive and evolving market.

Target Groups

D'Competent is committed to serving a diverse range of stakeholders, including academia, industries, law enforcement and regulatory bodies, by providing high-quality services tailored to their needs. Our key target groups include:

Academic Institutions and Civitas Academica

Providing lab services, training, and certification to enhance academic knowledge and practical skills.

Industrial Sectors

Supporting companies with consultancy, compliance, certification, and workforce training to improve performance.

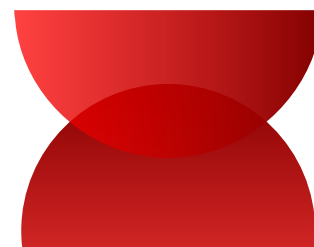

Government & Regulatory Bodies

Partnering with authorities to strengthen standards, safety, and sustainable practices.

Law Enforcement

Delivering specialized training and certification to support safety and chemical management roles.

Facilities

Classrooms

A well-equipped classroom designed for interactive learning, seminars, and theoretical training sessions.

Science and Technology Labs

Modern laboratory setup with advanced instruments to support hands-on experimentation and testing activities.

Training Equipment

Comprehensive set of personal protective equipment (PPE) and safety tools to simulate real-world industrial environments during training.

Library

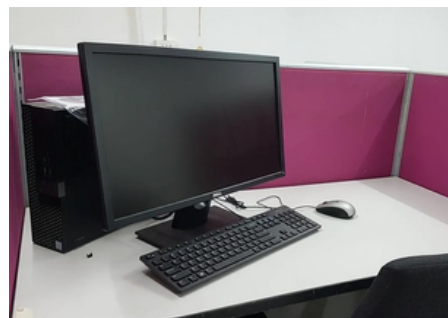

A curated collection of books, journals, and reference materials to support research and knowledge enrichment.

Facilities

❖ Computer & Internet

Dedicated computer lab with stable internet access to facilitate digital training, assessments, and data analysis.

❖ Discussion Room

Comfortable and private space for group discussions, mentoring, and collaborative planning sessions.

❖ Health Facility

Basic first aid station equipped with essential medical supplies to ensure the safety and wellbeing of all participants.

❖ Security Facility

On-site safety equipment, including fire extinguishers and emergency protocols, to ensure a secure training environment.

Our Experts

At D'Competent, we are proud to be supported by a team of seasoned professionals and certified instructors with extensive experience across various sectors. Some of them include:

Prof. Dr. Azwar Manaf, M.Met.

- Laboratory Management
- Oil & Gas Safety (K3 Migas)
- Welding Inspection
- Oil and Gas Testing
- Non-Destructive Testing (NDT)
- Corrosion Prevention & Control
- Material Characterization

Emanuel Eko Haryanto, S.T., M.T.

- Occupational Health & Safety (OHS)
- Incident Investigation
- Industrial Hygiene
- First Aider
- Firefighting
- Confined Space Specialist
- Gas Detection Technician

In addition to these experts, D'Competent is also supported by a **broad network of experienced and certified instructors**, ensuring comprehensive and industry-relevant training and consultancy across disciplines.

Our Services

Consultancy

Strategic guidance on regulatory compliance, environmental management, ISO standards (including ISO 17025), GHS, remediation, and sustainability.

Legal Document Preparation

Preparation of regulatory documents such as AMDAL, SMK3, UKL-UPL, LB3 permits, and compliance with Kepmenaker 187/1999 and Permenperin 19/2019.

Competency Certification

Accredited as a BNSP Competency Test Center (TUK), we provide SKKNI-based assessments to support national certification.

Professional Training

Led by certified instructors, covering essential topics such as chemical safety, laboratory techniques, instrumentation, HSE, QMS, SDS, and GHS standards.

Research Collaboration

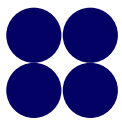

Actively partner with universities and research institutions to foster innovation through collaborative R&D projects and knowledge-sharing initiatives.

Laboratory Services

Providing reliable and precise laboratory testing, environmental analysis, and technical research to support operational excellence and compliance across industries.

Legal Document Preparation & Consultancy

At D'Competent, we have extensive experience in developing corporate legal documents to ensure compliance with Indonesian regulations. Below are some of the legal documents we have prepared:

Dokumen Pengendalian Potensi Bahaya Besar (DPPBB)

Developed in accordance with **Keputusan Menteri Tenaga Kerja No. KEP.187/MEN/1999**, this document helps businesses manage significant potential hazards in the workplace.

Dokumen Pencegahan dan Penanggulangan Keadaan Darurat Bahan Kimia (DPPKDBK)

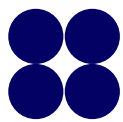

Created based on **Peraturan Menteri Perindustrian No. 19 Tahun 2019**, this document outlines preventive measures and emergency response plans for chemical-related incidents in industrial activities.

Dokumen Program Kedaruratan Pengelolaan Bahan Berbahaya dan Beracun (B3) dan/atau Limbah B3

Developed under **Peraturan Menteri Lingkungan Hidup dan Kehutanan No. P.74/MENLHK/SETJEN/KUM.1/10/2019**, this document ensures proper emergency management procedures for hazardous materials and waste, aligning with environmental safety regulations.

Professional Training

D'Competent offers certified training programs to build workforce competencies, strengthen safety practices, and meet regulatory standards. Delivered by certified instructors with industry experience, our training combines theory and practice for real-world application.

Training Program

Training sessions typically run for 2 - 4 days and can be conducted online or offline, depending on client needs. Participants will receive a certificate of completion, and certain programs follow BNSP certification standards.

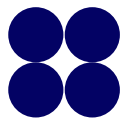

Training Topics

We cover a wide range of topics, including:

- ISO 17025 Laboratory Management
- Chemical Safety & GHS Labeling
- SDS Preparation
- Occupational Health & Safety (K3)
- Fire Safety & Emergency Response
- HIRA & PPE Usage
- Confined Space Entry
- Laboratory Instrumentation
- First Aid & Gas Detection

Other topics beyond those listed above can also be developed based on client needs.

Competency Certification

At D'Competent, we are committed to enhancing professional standards in the industrial and renewable energy sectors. As a Tempat Uji Kompetensi (TUK) accredited by the **Badan Nasional Sertifikasi Profesi (BNSP)**, we collaborate with esteemed certification bodies to provide comprehensive competency assessments:

LSP KIMIA INDUSTRI

Lembaga Sertifikasi Profesi (LSP) Kimia Industri

This BNSP-licensed institution specializes in conducting competency assessments in the industrial chemistry field.

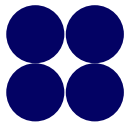

LSP EBTKE INDONESIA

Lembaga Sertifikasi Profesi (LSP) Energi Baru Terbarukan dan Konversi Energi (EBTKE)

Focused on the renewable energy and energy conservation sector, LSP EBTKE aims to enhance standards and quality by accrediting and assessing professionals involved in this field.

Through these affiliations, D'Competent ensures that individuals and organizations receive recognized certifications, reflecting their adherence to industry standards and commitment to excellence.

Research & Laboratory

Research and Development

- Development and characterization of composite materials, polymers, ceramics, and metals
- Corrosion studies and failure analysis for industrial applications
- Computational modeling for material performance and durability
- Environmental impact assessments and sustainable material development

Testing and Laboratory

- Destructive & Non-Destructive Testing (DT & NDT) – Tensile, impact, hardness, ultrasonic, radiographic, magnetic particle testing, etc.
- Microstructural & Chemical Analysis – SEM, optical microscopy, FTIR, etc.
- Remaining Life Assessment – Evaluating material performance and degradation.

Industrial Application

Our services support various industries, including manufacturing, chemical, energy, mining, and infrastructure, ensuring compliance with industry standards and regulatory requirements.

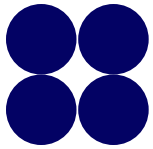

Our Clients

Leading companies across industries choose D'Competent as their partner in building professional competencies, enhancing workforce skills, and ensuring compliance with the highest standards.

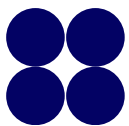

and many more.

Why Choose D'Competent?

- **Proven Expertise:** Our team brings over a decade of hands-on experience in laboratory services, consultancy, and training across key industry sectors.
- **Authorized Competency Test Center (TUK):** We operate as a certified TUK under a licensed LSP accredited by BNSP, ensuring nationally recognized assessments.
- **Tailored Industrial Training:** We offer practical, industry-driven training programs delivered by certified instructors with real field experience.
- **Integrated Consultancy Services:** From regulatory compliance to environmental and chemical safety, our consultancy helps optimize operations and ensure adherence to standards.
- **Trusted by Industry Leaders:** Recognized by leading companies for supporting workforce competency, certification readiness, and sustainable growth.

Our Legacy

Over the years, we have empowered industries, institutions, and professionals across Indonesia to meet the highest standards of quality, safety, and compliance. Our alumni—**ranging from certified professionals to institutional partners**—continue to drive excellence in their respective sectors, carrying forward the values of precision, integrity, and continuous development that define our legacy.

Boosting Evolution Across Domains

Thank you for exploring D'Competent.
Together, let's build a safer, smarter, and
more competent future.
